04th December, 2023

Dear Sir/Madam,

I am pleased to share with you that we have been collaborating with Dr. Soumen Kanti Manna (Associate Professor, Biophysics and Structural Genomics Division, Saha Institute of Nuclear Physics, Kolkata) on the project titled "Elucidation of mechanism underlying salt stress response in soybean" since 2021.

His lab has engaged in carrying out metabolomic analysis of root and shoot samples to understand the mechanism of saline stress response in soybean plants.

Feel free to contact me for any further queries or clarifications.

Thanks

Dr. A
