16. Electrical Grid Power Supply

HBNI and its Constituent Institutes/Off-Campus Centre (CIs/OCC) are either R&D Centres or fully Aided Institutes of the Department of Atomic Energy and hence under strict purview and monitoring of all Government regulations from time to time. Most of the CIs have their own transformers and dedicated staff functioning 24x7 for maintenance of electrical supply at all times. Being Government buildings, regular and uninterrupted power supplies are ensured throughout the year, in close coordination with the concerned State Electricity Board. Besides this, to ensure the continuous running of crucial instruments and machinery, adequate provisions are made for the existence of electricity supply backup by way of generators and inverters at all places.

(Prof. P.C. Selvin)
