Sub: HBNI-Industry Linkage Centre (HILC)

The **Homi Bhabha National Institute (HBNI)** was established in **2005 under section 3 of the UGC Act**. The role of HBNI is to nurture in-depth capabilities in nuclear science and engineering and to serve as a catalyst to accelerate the pace of basic research and facilitate its translation into technology development and applications through academic programs, **viz., Master's and Ph.D. degrees in Engineering, Physical, Chemical, Mathematical, Life and Medical & Health Sciences** while encouraging inter-disciplinary research. Additionally, academic programs in the domain of **Applied Systems Analysis** have also been identified to ensure the availability of adequate qualified human resources to address issues pertaining to **nuclear law, the economics of nuclear power, nuclear security, nuclear proliferation, intellectual property rights etc.** HBNI has been accredited by NAAC with a score of **3.4, as a category 'A' University in 2021**. In the MHRD's **National Institutional Ranking Framework (NIRF)** exercise for the academic year 2022, **HBNI received 11th Rank in Research Institute category, 17th rank in university category and was placed at 33rd position among 1657 institutions in the overall category.**

With a view to facilitate the translation of the R&D in the laboratory to the industry and for the welfare of the common man, HBNI has set up **“HBNI-Industry Linkage Centre (HILC)”**. The Center will also facilitate skill development of HBNI PhD student by way of internship in Industry.

Functions of HILC:

1. Function as facilitator for internship of students in industry
The HILC will maintain active interactions with the Incubation Centres set up in various CIs of HBNI, and wherever the activity under the HILC will benefit from the Incubation Centre, the same will be utilized with due approval from the concerned CI.

2. Enable R&D collaboration between Industry and HBNI students / faculty with the aim of scaling up processes, commercializing / incubating new technologies, developing new processes / products of interest to DAE, etc.
3. Enable interaction of industry with ex-scientific and technical experts from DAE units, and particularly the former faculty from CIs/OCC, for taking up consultancy projects.
